<p>Action: FBI</p> <p>1. In late December 1966 and early January 1967 QUHFP-1 debriefed ANCOIL-1 in detail regarding his medical colleagues still in Cuba. ANCOIL-1 said that most of them would like to leave Cuba. The majority of those described below are psychiatrists who are keenly aware of, and depressed by, the effect of the Castro regime. Almost all of the psychiatrists mentioned herein have friends and patients among Cuban Government officials and, in ANCOIL-1's opinion, those defecting would cooperate in extensive debriefings of their considerable knowledge. Most of them frequently travel abroad. ANCOIL-1 is attempting to maintain correspondence with the most promising. The defection of any of the psychiatrists would be especially harmful to the present Cuban Government, since it is faced with a rapid increase of suicides, mental illnesses, and alcoholism, stemming from a general breakdown of morals and mental health as traditional values are uprooted and replaced by repressive, unfamiliar demands.</p> <p>2. In the descriptions that follow, it should be noted that the Department of Psychiatry of the University of Havana Medical School is composed of professors and instructors from the psychiatric staffs of several hospitals, where the classes actually are given; there is no University Hospital per se.</p> <p>3. b. f. [redacted] [redacted]  
[redacted] Secretly but firm in his allegiance. Married, two or three children. Age 34, 5' 7", 160 pounds, blond hair. AUTOIL-1 has had no contact with him since 1962.

4. Cuban Physicians Whose Defection is Dubious but Not Impossible

DoB: C. 1924

a. f. [redacted] [redacted] Official [redacted]  
[redacted] He is constantly posing fun at the Cuban Government in sparring wit at parties that he regularly gives for friends in the Arts, whom he seems to cultivate. He is a close friend of [redacted] and [redacted], to whom he has admitted feigning approval of the Cuban Government. He is cultured and loves the good life. He was first married to [redacted] a French national formerly a professor at the [redacted] in Havana, who is now living in France, since their amicable divorce in 1961. He has one child. Collado moves in high government circles. Age 42, 5' 7", 150 pounds, black hair. He might defect, if shown a good offer, in spite of traditionally seeking not to complicate his life. He can be reached through his former wife, with whom he maintains correspondence. AUTOIL-1 is trying to obtain her exact address.

b. f. [redacted] [redacted] DoB: C. 1927 [redacted] [redacted]  
[redacted] vocational guidance for the University [redacted]  
[redacted] is [redacted] with alternating postings in Paris and Havana. In 1960 he told AUTOIL-1 that he intended to publish books outside of Cuba in order to have income and pretexts to justify travel and residence abroad. In AUTOIL-1's opinion, [redacted] studied and failed to justify Marxism, and obtained his current UNESCO posting so as to be out of Cuba. His wife [redacted] and two daughters are presently in Havana. Age 39, 5' 8", 170 pounds, light brown hair. It is very doubtful that [redacted] will openly break with the regime, even though he establishes a semi- or permanent residence abroad, but it might be worth approaching him when he has his family abroad because of his knowledge of, and access to, key Cuban Government officials.

c. f. [redacted] [redacted] National [redacted]  
[redacted] Hospital. He is extremely clever, intelligent, materialistic, and ambitious. He maneuvered himself into an important post and a wealthy private practice. He is a candidate for the Cuban Communist Party, which probably will be denied him because of a previous internship in a New York hospital, according to the opinion of [redacted] a former partner in medical practice. Palacios was a delegate to an international congress of psychiatry in Madrid in 1966. He has two daughters by a first marriage; no children by the second. Age 35-40, 5' 5", 170 pounds, brown hair. Defection is doubtful, but it is felt that [redacted] would give serious consideration to the offer of any post that would enhance his professional career.

DoB: C. 1902

d. f. [redacted] [redacted] National [redacted]  
[redacted] professor, head of the [redacted]

CURRENT DEVELOPMENT IN MEDICINE

SOCIAL PSYCHOLOGY: A STUDY ON ITS LIMITS  
AND BASIC CONCEPTS(\*)

By Dr. Leopoldo E. Araujo Bernal(\*)

(\*) Professor of Medical Psychology, School of Medical Services of the University of Havana. Director of the Department of Social Psychology of the Institute of Advanced Nervous Activity.

137

ELECTROCARDIOGRAPHICAL ALTERATIONS IN THE  
TRANSVENTRICULAR MITRAL COMMISSURECTOMY

By Dr. A. Hernandez Canero(\*), Dr. M. Rueda Mon(\*\*)  
and Dr. J. Castillo Navarro(\*\*)

(\*) Professor of Internal Medicine, Head of the Cardiology Department of the Comandante Manuel Fajardo Training Hospital.

(\*\*) Assistant Specialists, Department of Cardiology of the Comandante Manuel Fajardo Training Hospital.

142

CONCLUSIONS

1. The electrocardiograms corresponding to 33 cases of mitral stenosis operated transventricularly were studied.

2. The rhythm variations, as well as the favorable changes in the auricular and ventricular complex are those which, according to other authors, are present in patients operated transauricularly.

JPRS Doc No. 33413 : Date 20 DEC 65  
Trans. on Card No. 341 : UNCL

3. Many instances of pericardial injury were observed immediately after the operation. This injury is similar to that observed in patients who die through the atricle.

4. We were able to observe a fast deviation of the QRS axis towards the left, accompanied by signs of left ventricular hypertrophy, which shows severe mitral insufficiency.

5. The possibility of myocardial infarction following the trans-ventricular mitral dilatation is mentioned.

155

CHRONIC OBSTRUCTIVE EMPHYSEMA(\*)  
PSYCHOPATHOLOGY

By Dr. Alberto Orlandini N.(\*\*)

(\*) Presented before the First Regional Congress on Stomatology of Southern Oriente, on 29 October 1964.

(\*\*) Resident of the Psychiatric Service, Provincial Training Hospital of Santiago de Cuba.

157

SUMMARY

The chronic obstructive emphysema with breathing insufficiency of the fourth degree originates first delirium, and then catatonic stupor. The psychic disturbances following the changes of consciousness are described.

168

CARDIOVASCULAR ASPECTS OF SICKLE-CELL ANEMIA(\*)

By Dr. Jose Cabrera Flores(\*\*) and  
Dr. Hugo Camargo Gallegos(\*\*)

(\*) Presented before the First Regional Congress on Stomatology of Southern Oriente. Santiago de Cuba, October 1964.

(\*\*) Dr. Enrique Cabrera Cosio Cardiovascular Department. Provincial Hospital of Santiago de Cuba.

190

CONCLUSIONS

After studying eight patients with Sickle-cell anemia, the most important observation has been the enlargement of the electric systole shown by the electrocardiograms. This is to be confirmed in subsequent studies. Other observations are the presence of the Koglin syndrome in the two cases presenting the lowest hemoglobin level, the evolution with normal cardiac rhythm in most cases. This phenomenon is present in the evolution of chronic anemic syndromes and has not been fully explained yet.

6a. SUBJECT came up with Dr. Jose Angel MARTINEZ, a Cuban-born Communist, who was active in many Communist, leftist, and revolutionary organizations in Cuba. Before his death as a result of a heart attack, he was a member of the left wing student group and belonged to an organization called "Cuban Anti-Imperialist League" (C.A.I.L.) (Anti-Imperialist League), together with Aureliano VILLALBA, Jose Angel MARTINEZ, Jose Angel MARTINEZ, Jose VILLALBA, Vignarreta, Juan de Dios, Rafael MARTINEZ, Cuban "ANTIFASCIST" Villena, Juan VILLALBA, and Juan Antonio VILLALBA. During the Spanish Civil War, Subject collected money to help the Communist faction of the republic side but he did not go to Spain to fight. From 1933 he began working in the Ministry of Labor as a labor inspector. About 1935, at the time of the Spanish strike, VILLALBA and Dr. Jose Angel MARTINEZ, with others, organized the "Fronte Unico de Trabajadores Publicos." Source states that about this time VILLALBA became a militant Communist Party member. In 1940 VILLALBA was a member of the Cuban Communist Party (Cuban Communist Party) and in the National Medical Association which the Party had organized in an attempt to seize control of the leadership of the National Medical Association. In 1951 Subject was closely connected with Dr. Aurelio SORIANO, then president of Venezuela, and with Juan VILLALBA. VILLALBA had maintained contact with VILLALBA since 1935.

6b. Attached for your information is a copy of a file letter on Subject.

6c. Reference does not indicate whether the source of the information in reference dispatch was one of the VILLALBA stationed in Havana or a Cuban who is who recently arrived in Mexico. If the latter, and the source is planned to come to the U.S., it would like to be advised of the date of the reference's departure in order to deprive him.

7. A sterilized version of the above information on VILLALBA may be passed to the VILLALBA's.
